

I am an active Amateur Radio operator and hold callsign NY2LJ. I support this petition and request that the FCC maintain the Morse Code requirements for General and Extra licenses. I also support the petitioners' recommendation that written exams should emphasize technical questions more, especially for General and Extra Class, and topics should be updated. The current practice of the Volunteer Examiner Program which allows instant re-tests at VE sessions should also be discontinued as per the cited petition.

Thank you for your consideration,

Sincerely,

Lonnie Juli
